INSTRUCTIONS Unpack pitcher and filter cartridge from plastic wrapping and follow steps below.

Soak filter upright in cold water for 20 minutes (first time use only).

STEP 1

Hand-wash pitcher, lid, and reservoir with mild detergent.

STEP 2

Rinse pitcher filter cartridge under cold running water for 10-15 seconds.

STEP 3

Fit reservoir inside pitcher until first ridge is flush with pitcher rim.

STEP 4

Insert pitcher filter cartridge into reservoir. Press firmly to ensure a tight seal.

STEP 5

Fill reservoir with tap water, allowing water to flow into bottom part of pitcher, and you will have fresh, clean water in seconds.
Note: Empty first two full pitchers (first time only).

STEP 6

ISO 9001:2008
Certified Manufacturer

IMPORTANT INFORMATION

Your Pitcher Water Filter* system contains a cartridge that must be replaced at regular intervals to maintain proper performance.

- The filter cartridge has a limited service life**. Use only factory approved cartridges.
- Changes in taste, odor, and flow of the water being filtered indicate that cartridge should be replaced.

Failure to change the cartridge routinely will result in reduced performance and void the warranty.

- **DO NOT** run hot water through unit.
- **DO NOT** use where water is microbiologically unsafe.

REPLACEMENT CARTRIDGE

Take replacement cartridge from plastic wrapping and soak upright in cold water for 20 minutes (first time use only).

STEP 1

20 min

Rinse replacement cartridge under cold running water for 10-15 seconds.

STEP 2

Install new cartridge*** inside reservoir (Step 5 of Instructions). Fill with tap water and you will have fresh, clean water in seconds.

Note: Empty first two full pitchers.

STEP 3

***Remove lid (1) from pitcher (4). Dislodge used cartridge from reservoir (3) by pushing cartridge upward through holding space. Place new cartridge in, pressing firmly to ensure a tight seal.

CARE AND OPTIMUM USE

1. Use cold water only. Do not use water above 85°F/ 29°C. This may damage the filter cartridge (2).
2. The contaminants or other substances removed or reduced by this water filter are not necessarily in all of users' water.
3. Do not use with water that is microbiologically unsafe or of unknown quality.
4. Hand wash lid (1), reservoir (3), and pitcher (4) with mild, soapy water.

TROUBLESHOOTING

1. Unfiltered water leaks into the filtered water reservoir. Check to be sure that the filter cartridge (2) has been pushed firmly into place.
2. Dust appears in the filter water reservoir. Filter cartridge (2) is not flushed properly. Flush new cartridges.
3. It is recommended that you clean replacement cartridge to avoid clogging. In certain geographical areas the cartridge may need to be cleaned more often.
4. For more information, refer to other labels and/or the User Guide.

LIMITED WARRANTY

CRYSTAL QUEST® warrants your CRYSTAL QUEST® Pitcher Water Filter for one year from the date of purchase against all defects in materials and workmanship when used in compliance with the manual. CRYSTAL QUEST® disclaims all implied warranties including, without limitation, warranties of merchantability and fitness for a particular purpose. If for any reason the product proves to be defective within one year from the date of purchase (90 days for filter cartridge), please call for assistance. This warranty gives you specific legal rights and you may have other legal rights which vary from state to state. CRYSTAL QUEST® assumes no responsibility for incidental or consequential damages, for damages arising out of misuse of the product, or the use of any unauthorized attachment. Some states do not allow the exclusion or limitation of implied warranties or incidental or consequential damages; therefore, the above limitations or exclusions may not apply to you. Should service be required during or after the warranty period or should you have any questions regarding how to use your CRYSTAL QUEST® Pitcher Water Filter, contact our Technical Support department at service@crystalquest.com, Monday through Friday, 9 A.M. to 5 P.M. Eastern Time.

*Capacity: Approximately 2,000 gallons (6-12 months)

**Life of the cartridge varies with water consumption and water condition
